Return to play

Return to play plan

This plan is intended to provide guidance as a result of Broward County Emergency Order 20-15. Additional recommended practices that could help in the protection of our Players, their Families and everyone they come in contact with. **It is imperative to note that these actions cannot guarantee that the coronavirus will not be spread by participating in the sport, and every player and family should understand that if they do not want to risk possible infection, then the best course of action for them is to avoid contact with people.**

Attached are the policies regarding coronavirus at the parks and as stated in the OPTIMIST CLUB OF COOPER CITY/ CITY OF COOPER CITY COMMUNICABLE DISEASE RELEASE OF LIABILITY AND ASSUMPTION OF RISK AGREEMENT. All players must sign the document and return it to CCO Sports before participating in any activities. Policies and guidelines are set in accordance to Broward County Emergency Order 20-15.

No refunds will be issued for any reason. Any guidelines are subject to updates and/or changes as required by any Emergency Order or regulations set in place.

The CCO will work to keep all divisions separated on individual fields to limit the possible infection brought in by any one player or parent.

- Each division will play at a separate field to keep distancing of players and others.
- Only 1 coach will be allowed on the sideline or field with each team.
- Visitors and accompanying minors must stand a minimum of 6' away from anyone else. CCO will ask city for markings along the sideline.
- Please follow any marked Entrances and Exits to and from the fields.
- Bleachers, playgrounds, and concessions remain closed until further notice.

Face Masks

All Players, families, volunteers, referees, CCO members or anyone else at the fields for the sport must comply with the following requirements for Face Masks. Anyone not adhering to these guidelines will be asked to leave the park.

- Cloth Face Masks do not offer any standard of protection from coronavirus but are recommended by the CDC to reduce/limit the spread of coronavirus.
 - Medical Faces Mask are permitted and offer the ASTM standard of protection as indicated by the manufacture.
 - No foam Face Masks or masks with vents will be permitted.
- All players when not actively playing in a game or practice must wear a face mask that always covers the mouth and nose completely.
- All masks must cover the entire nose and mouth. Anyone not able to wear a mask correctly will be asked to leave.

- Volunteers will be at the fields to check-in players and any family member for each game. Anyone who does not check in cannot play or be on the field.
- Players may wish to wear gloves to avoid touching their face during play. Gloves are not mandatory.
- Referees will be given electronic whistles to enable them to keep their masks on.

Other Precautions

These are additional procedures being taken to help protect the player from the spread of coronavirus. Again, these measures are not 100% effective and exposure to coronavirus is still possible.

- All common equipment will be sanitized before each game.
- Hand sanitizer will be available for the players to use on their hands or gloves.
- Social distancing must be maintained by all visitors on the fields.
- Any huddles during the game must be a minimum arm's length from each other.
- No Spitting is allowed for any reason.
- No Food or Gum is permitted on the fields by players or visitors.
- Players must bring their own water and dispose of any used water bottles when leaving the field.
- Water fountains will be not be accessible until further notice.

Screening

- Everyone including Players, Guardians, Volunteers, Referees or Others entering the field must have completed the online questionnaire before each game and practice. The e-mail receipt of the completed questionnaire for that event must be shown to the volunteers checking participants into the field.
- Temperature checks are required to enter the fields. Anyone with a temperature greater than 100.4 will not be permitted to enter.
- Any person who does not pass the screening must leave the field and please understand this is for everyone safety!
- Families of any individual who fail screening should not come back until they have been tested and cleared for Covid-19.

The image shows a screenshot of a "COVID-19 Questionnaire" form. The form is titled "COVID-19 Questionnaire" and includes a sub-header "Please print your name at the top of the questionnaire before you start your questionnaire." The form contains several sections with input fields and checkboxes, including "Personal Information", "Symptoms", "Exposure", and "Screening". The form is partially filled out with text and has a "SUBMIT ANSWERS" button at the bottom.

Contact Tracing

- The screening information filled out online will be used to inform you if you or your player has been possibly exposed to a known infected person.
- No private information will ever be given out except to inform you of the exposure.

Any positive Covid-19 or reason to get tested

- In the case of a reported Covid-19 illness, the division with the illness will immediately be shut down until exposure can be verified.

- If contact tracing suggests that further spread of the virus was possible, other divisions will be shut down or divisions playing at that park based on contact tracing.
- All players, families, officials, and others exposed will be notified and asked to stay quarantined for 14 days per CDC guidelines.
- If any person exhibits any symptoms while at the field, that person will be asked to leave.
- If any game is in progress when notified of a player having a positive Covid-19 test, the game must immediately be cancelled, and all players notified.
- If a player exhibits symptoms and gets tested for Covid-19 they must notify the league and the team will be suspended until the test results come back.
